

100% SMOKE Free environment

- Smoking will not be permitted anywhere on Hospital property including parking lots and formerly designated smoking areas.
- Anyone wishing to smoke will be required to leave Hospital property. The property line is defined as city maintained sidewalks or beyond the tree line should there be no sidewalk.
- Patients requiring assistance to leave the property to smoke will require a family member to assist them. Nicotine replacement products and other supports will be available to patients during their Hospital stay.

If you have questions or concerns about our smoke free policy please contact Public Relations at 519-631-2030 Ext. 2130 or email publicrelations@stegh.on.ca

www.stegh.on.ca

Why Go Smoke-Free?

- To promote the health and well-being of the community.
- To eliminate exposure to second-hand smoke on hospital property.
- To support the Stop Smoking for Safer Surgery Campaign, sponsored by the Anaesthesia section of the Ontario Medical Association.
- Disease prevention is as important as the treatment of illness.
