

"The values that were instilled in me growing up drive me to do good work every day. In doing the best that I can, and seeing the outcome of providing compassionate and quality care, also adds to the drive. I am motivated by making a difference in my patients lives, and contributing to their care and well being. The great staff I work with helps too!

As a nurse at STEGH, it's my job to do what I can to provide a great experience for our patients. Putting myself in the position of patients and their families helps me to be empathetic and understanding."

Wil Welsh
Registered Nurse, AMU 5

what's your
WHY?

"As a Social Worker in Adult Mental Health, I am very passionate about supporting others and providing services to promote mental, emotional and physical well-being. I view each day as an opportunity to encourage personal growth and change.

I am fortunate to have a career that supports my own values and to work with a great team of colleagues that make my work life fulfilling."

Lorie Coffey
Social Worker, Mental Health

what's your
WHY?

Mike Moodie's moto is, "Just taking care of the people!" Mike's commitment to the patient experience goes back almost 30 years, when he started working at STEGH. It is his simple gestures in the ambulatory care area that have made all the difference for patients. Recently, a frustrated patient required support exiting the hospital and finding transportation home.

Mike was instrumental in calming the patient down, assisting her with calling a cab, and waiting to ensure she made it safely home. Mike took a moment out of his busy work schedule to support a patient's safety and comfort.

Mike Moodie, Housekeeping

What's your
WHY?

"I feel fortunate to have the ability to make the patient's experience a positive one. Especially during some of the most challenging or difficult times in their lives. Good nursing care can make a huge difference in a patient's recovery and I enjoy seeing people leave the hospital feeling that they were cared for.

I am accountable to my peers and patients, and feel good knowing that everyone can count on me. We work so hard as a team on 2 Main to provide the best possible care to all of our patients."

Angela Leddy
Nurse, 2 Main

What's your
WHY?

"My motivation stems from seeing patients improve functionally and being able to be part of that process. I enjoy working with my patients and co-workers. Also, having morning coffee helps! Patient experience matters, because the patient is important and should be treated with respect.

Working in Rehab and Continuing Care allows me to develop therapeutic relationships and work with patients for an extended period. It's fulfilling to watch patients improve and meet their goals."

Savannah Saarloos, OT Reg.
Rehab - CCC

what's your
WHY?

"Knowing that I can make a difference in a patient's health care journey is what motivates me. We see patients at their worst. If I can make their day better in any way I feel like I have done my job. We have a great crew on 2 Main (and the other units that I float to). Knowing that I have a supportive, knowledgeable team on my side makes all the difference.

I treat every patient like I would want my own family or friends treated. If a family member was in hospital, I would want them to have the best possible patient experience. That is what I try to give my patients every day."

John Stalker
RPN, 2 Main
